English

Certifications

First Certificate in English (FCE2) -
Level B2

Carlos W. Mercado

Full-Stack .NET Developer • Español nativo/English B2 • Lifelong
Learner
Argentina

Summary

LAST UPDATE: October 2023

► PAST
From Mining and Earth Science, to Coding and Software
Development.
► PRESENT
Full-Stack Web Developer, focused on .NET Development (Microsoft
Technologies). Code should be built clean, organized and efficient.
I like good documentation. I like to follow good practices and
style, and get things done the best way possible. Good software
architecture and design pattern implementation should be the norm.
Currently, October 2023, I am collaborating in 3 joint projects. 2 of
them in NET Framework, the other one in Flutter.
► FUTURE
In the future, I want to continue my personal grow as a Software
Developer and professional. For me, programming is not just about
having a job and earning a living, but also about generating a work-
flow that allows me to make a good job.

► Hard Skills:
- Knowledgeable at .NET MVC Standard (4.7.2), and at .NET Core
2.2, 6, 7. C#
- nTier web application projects, MVC, Web API, Razor Pages.
- Entity Framework, Repository Pattern, Unit of Work.
- HTML, CSS, SASS, Bootstrap 5.1
- Backend: WebAPI, Databases, MS SQL, Mongo DB. IIS.
- Some school experience developing at NET MAUI, Android (with
Kotlin).
- Domain Driven Design (with framework implementation), Clean
Architecture.
- Dart and Flutter.
- TypeScript and Angular.

- Other: Docker, Bash, Powershell, Windows OS, Bootstrap, CSS, Sass, JavaScript, jQuery, Git, GitHub, GitLab, Figma, VSCode, VS22, Python.

► Soft Skills:
- Easy going person. Adaptable. Accountable. Patient. Good communicator. Punctual.
- Critical thinker. Problem solver. Open-minded. Good work ethic. Reliable. Relatable.
- I like collaboration and team work. I like to walk alone. I like both sides of that coin. Software Development means standing on the shoulders of giants (what would a single developer be without the international Software Development Community?).
- I'm always willing to walk the second mile when necessary.

► Accomplishments:
- 1 Full-Stack complex application (not generic).
- Worked: 1 other Web App, 2 Web API.
- Working: 1 mobile application.
- Integrating of all of them. And DBs.

► Additionally:
- I have a 3 years Associate's Degree in Mining (UNComa, Argentina).
- I know about Trading, Technical Analysis, Financial Markets and Cryptocurrencies. Include PineScript scripting language for TradingView platform.
- I follow on YouTube: EDTeam, hdeleon.net, dotnet, Fireship, TheCoderCave, Nick Chapsas, CodelyTV, etc.
- Learning: BYUI, LinkedIn Learning, Udemy, YouTube, C# Discord, and others.
