## PROFESSIONAL SUMMARY

Senior Full-Stack .NET Developer with 4+ years of experience building enterprise applications. Expertise in ASP.NET Core (NET Framework), C#, Entity Framework Core, SQL Server, Angular, REST APIs and Clean Architecture, Docker, GitLab, Agentic AI (Codex) — delivering solutions used by hundreds of users and generating thousands of operational reports.

## TECHNICAL SKILLS

|                  |                                                                                                                                            |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Backend</b>   | C# • ASP.NET Core (6–10) • ASP.NET MVC / Web API • Entity Framework Core • LINQ • RESTful APIs • OpenAPI / Swagger • NSwag • iText Reports |
| <b>Frontend</b>  | Angular • Angular Material • TypeScript • JavaScript (ES6+) • Bootstrap • HTML5 • CSS3 • AJAX • jQuery • ASP.NET Core MVC Razor            |
| <b>Databases</b> | SQL Server • MongoDB • MySQL                                                                                                               |
| <b>DevOps</b>    | Git • GitHub Actions • GitLab CI/CD • Docker • IIS • AWS • Linux (Ubuntu / Fedora)                                                         |
| <b>Mobile</b>    | Flutter • Dart • .NET MAUI (some)                                                                                                          |
| <b>AI Eng.</b>   | AI Agents • MCP • Prompt Engineering • Agentic Workflows • AI-Assisted Dev                                                                 |
| <b>Patterns</b>  | Clean Architecture • N-Layer • SOLID • DDD • Design Patterns • DRY / KISS                                                                  |

## PROFESSIONAL EXPERIENCE

### Full-Stack .NET Web Developer

Dirección General de Informática y Tecnología • Zapala, Neuquén, Argentina • Jun 2021 – Present

- Designed & developed multiple enterprise applications using ASP.NET Core with multi-layer and clean architectures.
- Built full-stack solutions: backend services, REST APIs, data-access layers and responsive web UIs.
- Implemented authentication & authorization (Microsoft's Identity API); integrated external systems via REST APIs.
- Designed SQL Server schemas and Entity Framework Core data layers.
- Deployed to test/production environments (IIS, Docker, GitLab CI/CD); maintained and debugged live systems.
- Served as lead technical contributor on strategic projects; delivered systems serving hundreds of users.

**Stack:** C# • ASP.NET Core • Entity Framework Core • SQL Server • Angular • Docker • GitLab CI/CD • REST APIs • Clean Architecture - Flutter

## EDUCATION

### B.S. in Software Development — GPA 3.91

Brigham Young University–Idaho • Jan 2020 – Apr 2026

### A.A.S. in Applied Technology — GPA 3.86

Brigham Young University–Idaho • Jan 2020 – Jul 2023

## CERTIFICATIONS

First Certificate in English (FCE B2) — Cambridge B2 • Certificate in Computer Programming — BYU-Idaho • Certificate in Full-Stack Web Development — BYU-Idaho
