+54 9 2942 415110 - carlos.washington.mercado@gmail.com

Online Résumé: <https://carloswm85.github.io/> (with additional information)

This resume is ATS friendly.

(1) Professional Summary

Senior Full-Stack .NET Developer with 5+ years of professional experience designing, developing, deploying, and maintaining enterprise web applications using Microsoft technologies. Strong background in ASP.NET Core, C#, Entity Framework Core, SQL Server, Angular, REST APIs, and Clean Architecture.

Experienced in the complete software development lifecycle, including requirements analysis, software architecture, backend development, frontend development, database design, API integration, authentication and authorization, testing, deployment, and production support.

Proven ability to translate business requirements into scalable software solutions that serve hundreds of users and generate thousands of operational reports. Experienced working independently as a primary technical contributor.

(2) Core Competencies

- Full-Stack Web Development
- Backend Development
- ASP.NET Core Development
- REST API Design and Integration
- Clean Architecture
- N-Layer Architecture
- Software Design Patterns
- Object-Oriented Programming (OOP)
- Domain-Driven Design (DDD)
- Entity Framework Core
- Database Design and Optimization
- Authentication and Authorization
- Requirements Analysis
- Software Architecture

- Debugging and Troubleshooting
 - Code Review and Refactoring
 - Agile Development
 - Technical Documentation
 - Remote Team Collaboration
-

(3) Technical Skills

Languages

- C#
- JavaScript (ES6+)
- TypeScript
- SQL
- Dart
- Python
- HTML5
- CSS3

Backend Technologies

- NET Framework 4.7.2
- ASP.NET Core 6
- ASP.NET Core 7
- ASP.NET Core 8
- ASP.NET Core 9
- ASP.NET Core 10
- ASP.NET MVC
- ASP.NET Web API
- Razor Pages
- Entity Framework
- Entity Framework Core
- LINQ
- RESTful APIs
- OpenAPI / Swagger
- NSwag
- Authentication & Authorization
- Identity API

Frontend Technologies

- Angular

- Angular Material
- JavaScript
- jQuery
- Bootstrap
- HTML5
- CSS3
- AJAX

Mobile Development

- .NET MAUI (some experience)
- Flutter
- Dart

Databases

- Microsoft SQL Server
- Oracle DB
- MongoDB
- MySQL

DevOps & Tools

- Git
- GitHub, GitHub Actions
- GitLab, GitLab CI/CD
- Docker
- IIS
- AWS
- Bash Scripting
- Linux (Ubuntu, Fedora)

Software Engineering

- Clean Architecture
- N-Layer Architecture
- SOLID Principles
- DRY
- KISS
- Design Patterns
- Domain-Driven Design (DDD)
- Data Structures
- Software Architecture
- Refactoring
- Code Review

- Debugging

Collaboration & Project Management

- ClickUp
- Asana
- Discord, Slack
- Zoom, Google Meet

AI Engineering

- AI-assisted Software Development
 - AI Agents, Codex
 - Agentic Workflows
 - Model Context Protocol (MCP)
 - Prompt Engineering
 - LLM Integration
 - AI-powered Code Generation
 - AI-powered Testing
 - AI-assisted Documentation
 - AI-assisted Debugging
-

(4) Professional Experience

Full-Stack .NET Web Developer

General Division of Information and Technology
Zapala, Neuquén Province, Argentina

June 2021 – Present

Responsibilities and Achievements

- Designed and developed multiple enterprise web applications using ASP.NET technologies and multilayered architecture.
- Built full-stack solutions including backend services, web interfaces, database layers, and API integrations.
- Developed and maintained REST APIs with authentication and authorization mechanisms.
- Implemented business requirements and translated operational processes into software solutions.
- Designed and optimized database structures and application data access layers using Entity Framework and SQL Server.
- Integrated external systems and services through API-based communication.

- Developed responsive user interfaces and mobile-accessible solutions using modern web technologies.
- Participated in software architecture decisions and implementation of maintainable application structures.
- Deployed applications to testing and production environments.
- Managed application maintenance, troubleshooting, debugging, and feature enhancements.
- Served as the primary technical contributor for key software initiatives.
- Delivered solutions used by hundreds of users and capable of generating thousands of operational reports.

Technologies Used

C#, ASP.NET MVC, ASP.NET Core, ASP.NET Web API, Razor Pages, Entity Framework, Entity Framework Core, SQL Server, Angular, JavaScript, Bootstrap, jQuery, Git, GitLab, GitLab CI/CD, Docker, IIS, REST APIs, Clean Architecture.

(5) Education

Bachelor of Science in Software Development

Brigham Young University–Idaho
Rexburg, Idaho, United States

January 2020 – April 2026

- GPA: 3.91
- Department of Computer Information Technology
- Program Code: 442

Associate of Applied Science in Applied Technology

Brigham Young University–Idaho
Rexburg, Idaho, United States

January 2020 – July 2023

- GPA: 3.86
- Department of Computer Information Technology

(6) Certifications

First Certificate in English (FCE)

Cambridge University Press & Assessment English

- Level: B2
- Credential Number: 0060045472

Computer Programming Certificate

Brigham Young University–Idaho

Full Stack Web Development Certificate

Department of Computer Information Technology
Brigham Young University–Idaho

(7) Additional Education and Training

- Certificate Computer Programming
 - Certificate Full-Stack Web Development
 - Mining Engineering Technology (Associate's degree, "Universidad Nacional del Comahue", Argentina)
 - English Language Studies (B2)
-

(8) Soft Skills

- Strong problem-solving abilities
- Excellent analytical thinking
- Effective written and verbal communication
- Adaptability and rapid learning
- Time and task management
- Remote collaboration
- Technical leadership

- Stakeholder communication
- Presentation and reporting skills
- Continuous improvement mindset
